## FULLER CO. HAS MADE PEACE.

TO SIGN AN AGREEMENT WITH THE BUILDING UNIONS TO-DAY

#### That Will Send 20,000 Men Back to Work -Work of Sub-Contractors Who Won't Come In to Be Taken Up by the Company-General Peace Seems Far Off.

Conferences which have been going on for several days between the George A. Fuller Company and the unions in the building trades, in which the conciliation committee of the Civic Federation has taken part, have resulted, so it was stated yesterday, in a plan of arbitration being adopted by which all the men who are now idle on the contracts of the Fuller company may return to work this week. An agreement between the company and the unions will be signed to-day and it is expected that 20,000 persons employed on the different contracts of the Fuller company will go to work to-morrow or the next day.

A good deal of the work of the Fuller company is sublet to contractors who are members of the Building Trades Employers' Association. Should these sub-contractors refuse to resume work, it is said, the Fuller company will take the contracts in hand itself. The plan of arbitration adopted is said to be similar in effect to that of the Building Trades Employers' Association. Should this be the case its adoption may lead to an earlier conclusion f the fight between the association and the building trades unions than might otherwise be expected. Details of the plan were withheld from reporters yesterday.

Judging from a meeting held last evening at Fifty-fourth street and Eighth avenue the Building Trades Employers' Association and the unions are not likely to come to terms soon. It was expected that W. H. Farley, James P. Archibald and E. A. Moffett, representing the labor contingent of the Civic Federation's conciliation committee, would attend this meeting to present the federation's plan of an arbitration conference preparatory to resuming work. For some unexplained reason the representatives of the Civic Federation did not attend. These unions were represented:

White Stone Association of Marble Polishers. Plain and Ornamental Plasterers, Mosaic ers, Plain and Ornamental Plasterers, Mosaic and Encaustic Tile Layers, Amalgamated Carpenters' Society, Brotherhood of Painters, the Steam Fitters, Elevator Constructors, Sofety Engineers, Portable Hoisting Engineers, Salamander Association of Pipe and Boiler Coverers, Reliance Labor Club of Merble Cutters, Amalgamated Painters' Society, the Metallic Lathers and the Compact Labor Club of Marble Cutters' Helpers, dames Nason, who presided, said that the meeting was called to hear the result the meeting was called to hear the result of a proposition made by the unions to the comployers individually, asking them to restore the conditions existing prior to the look-out, the unions to consider any plan of arbitration which may be submitted to them. Reports from the unions were to the effect that in every case the cuployers refused to consider this. The fellowing statement was made after the meeting:

meeting:
Inasmuch as the labor organizations have not received the consideration due them and the public has been denied the true facts of the unwarranted stand taken by the Builfaing Trades Employers' Association, many of the organizations propose to call a mass meeting to give the public the truthful and honest side of the questions involved. It was decided to have such mass meeting subject to the call of the chairman after each organization takes up the matter and reports officially on it.

Delegates who were seen after the meet-

Delegates who were seen after the meeting said that they did not think the unions would accept the plan of the Civic Federa-

If they had been, when they heard of alleged cases of extortion hey should have notified the unions, and the unions would have at once acted on the unions would have at once acted on these cases. There was no warrant for the shut-down. It was not in any way justified by the conditions and was certainly not the best way of bringing about permanent peace between the unions and the employers."

Four branches of the Marble Workers' Union will hold a meeting in Murray Hill Lyceum on Thursday night to discuss the situation. It was stated last night that several more unions in addition to the Tile

TWO SHOT IN A BALL GAME. Gun Stopped a Rusner From Stealing Second-Uninter Eilled Later.

ATLANTA, Ga., June 28 .- As the result of a baseball game on the Spain plantation near this city vester lay afternoon, in which strenuous tactics were introduced, two negro players are dead and the police are scouring the swamps south of here for the assailants

Sam Johnston, one of the crack players for the Spain megroes and Dick Edmondson, the umpire, are the dead. The names of the negroes who did the killing have not been learned.

The game was a contest between the Spain negroes and those of a neighboring plantation, between whom there had existed a rivalry dating back to the times of slavery.

The Spain negroes were getting the better of the contest despite heroic work on the part of their opponents and their rooters. In the sixth inning, with the score 4 to 3 in favor of the Spain aggregation, Johnston reached first. He' prepared to steal second.

The catcher missed the ball, the man at the bat stepping back and interfering, it is said. Seeing this, one of the anti-Spain rooters levelled his shotgun and emptied a load of buckshot into Johnston just before he reached second base.

In the excitement which followed the negro who did the shooting escaped. Johnston was carried to one side and the game continued, but before it was over he died. In the eighth inning the score was tied, when a decision of Umpire Edmondson allowed one of the anti-Spain runners to score. At this one of the Spain players, pulling a pistol, emptied three chambers into the umpire, killing him instantly.

The game then broke up in a free fight in which nothing more serious was done than the cracking of a few heads with bats. In the mélée the second murderer escaped.

#### STUDENTS AS HARVEST HANDS. Nebraska Will Invite Eastern College Men to Help Gather the Crop.

LINCOLN, Neb., June 28.-Students of Eastern colleges and universities are going to receive invitations to come to Nebraska and help the farmers harvest their crops this summer. The State Labor Bureau has decided to call the students' attention to the cheap railroad fares to the West and to the wages being paid for harvest hands, and hope in this manner to secure hundreds of young men for this work.

The harvest help is one of the greatest questions of the West and annually thousands of dollars' worth of grain goes to waste because of lack of hands. Beginning in southern Kansas in early June. the harvesters work north as the grain becomes ripe, and September finds them harvesting in North Dakota, thus giving the men three months' steady work at good wages. This year farmers are paying from \$2 to \$3 a day. Even boys earn good wages in the fields

When told about the sermon Chief of Police George Bowman said.

### TROLLEY MEN HURT A WOMAN. Result of a Dispute Between Jefferson Brink and a Conductor.

Jefferson Brink, of 1649 Forty-fifth street, Brooklyn, started out with his wife to Coney Island vesterday afternoon in a trolley car running over the Culver route. He says they got on at Twenty-second avenue. At that point the conductor went through the car to collect a second fare from everybody. Brink asserted that he had just got on, ought not to be charged a second fare, and refused to pay it. The conductor called Inspector Eck.

At Kings Highway the car was stopped and Eck and the conductor dragged Brink and his wife from the car. The four fought all over the street for a few minutes and Mrs. Brink was trampled until she became unconscious. The railroad people then put the Brinks back on the car and took them to the Neck road, where they called a policeman. Mrs. Brink was taken to the house of Engine company 154, and Ambulance Surgeon Kane was summoned from Conev Island. He said the woman was suffering from severe internal injuries. She was sent home in a carriage.

The police took Brink and Eck to the Coney Island station. There the sergeant declined to hold either of them and advised each to get a warrant for the other in the morning if he cared to continue the matter

NEW ORLEANS, June 28 .- The Central Trades and Labor Council, composed of the white labor unions, has invited the Central Labor Union, composed of the negro unions, to join it in the big parade on Labor Day this year, the negro unions to fall in and follow the white unions. If the whites and blacks parade together it will be the first time this has been

The Federation at its last meeting here decided in favor of organizing the negroes into unions and bringing them into the Federation, and detailed several organizers for the purpose. The movement was very successful in New Orleans, where there are nineteen negro labor unions representing 11,000 men.

Girl's Remark Brings On a Tragedy in Breathitt County-One Man Dead.

JACKSON, Ky., June 28.-Another killing

occurred in Breathitt county vesterday which is traced back to the Hargis-Cockrill feud. Near Daisy Dell, on the McGowan county line, the Barnetts and Hackers met at the home of Miss Burns, a sweetheart of Hiram Barnett. She was also sought by other young men of the neighborhood. The girl accused Barnett of saying that her uncle, Burns Fitzpatrick, had bought him a fine rifle in Jackson after he hung the jury trying Jett and White. When asked who told her, she said John Hacker had told her.

With this Barnett called Hacker cut, and the other young men joined them in the hallway of the girl's home. Soon there was shooting, and when the lights were brought it was found that Hiram Barnett had been shot dead and that Joe and John Hacker were wounded.

Put a Joint in Houston, Tex., Out of Business for the Night. Houston, Tex., June 28.-The largest gambling place in Houston was put out of business temporarily by two women yesterday morning. They appeared at the

gambling house at 10 o'clock. The place was crowded and they made a stir. They began operations at the crap tables, playing with success. They then staked gold pieces, of which they seemed to have an unlimited quantity, on roulette, quitting the game about \$400 to the good. They ended up at faro, playing the limit.

After an hour's play they had won all the money in sight, breaking the bank and causing the proprietor to close down for the night. They won in excess of \$12,000 at faro. After putting the bank out of business the women left the place and were driven to the Grand Central station, where they boarded a train westbound. At the hotel where they stopped they registered as Lavinia Jayne, Chicago, and Louise Dulcet, San Francisco, but the names are believed to be fictitious.

his resignation. "Gen. Payne," said the Senator, "is an intimate friend of mine, and I know positively that he will not resign. NEGRO PREACHER IN WILMING. TON ON THE LYNCHING.

Tells the Negroes: "Be a Law Unto Yourselves and Die in Your Tracks"-Calls the White Man a "Monstrosity Before Ged" - Standing by Mr. Elwood.

WILMINGTON, Del., June 28. - Fifteen thouand persons to-day visited the scene of the lynching of the negro White on last Monday night. The feature of the day was the preaching of sermons in the churches, either directly or indirectly referring to the events of last week and all condemning the lynching. The members of Olivet Presbyterian Church, of which the Rev. Robert A. Elwood is minister, adopted

he following: "We, realizing the unjust criticism that has been made upon our beloved pastor, the Rev. R. A. Elwood, by a large portion of the public press, do place ourselves on record in the following resolutions.

"We express our firm belief in our pastor's honesty, integrity and Christian character, our appreciation of his ministeral labors in our congregation, and our admiration of his manly, Christian courage as ex-pressed by his pulpit messages and his life in our midst. "We record our belief that his message

of last Sunday evening was both timely and true, sensible and scriptural, and in no wise can the action of the citizens on Monday night be chargeable to that sermon. In Bethel Church, colored, Bishop M. B. Salter of Indian Territory this morning gave his hearers advice without alluding to the lynching. In the evening, however, n the same church, the Rev. Montrose W. Thornton made a wild address to the con-

gregation. He said: "The negro race is no better nor worse than the Caucasian, or any other race. His opportunities and advantages have not been a thousandth part as favorable as those of the whites, but in morals and good citizenship he stands well with his

white brother. "I was charitable to whites, but to-night I am a convert to another doctrine. an advocate of other methods to deal with the race that is bent on piling their hellish-WOMEN GAMBLERS WIN \$12,000.

mess upon our race.

"The white man, in face of his boasted civilization, stands before my eyes to-night the demon of the world races, a monster incarnate and which, so far as the negro race is concerned, means to give no quarter.

"The white is a heathen, a flend, a mention before God and is coval to any act.

"The white is a heathen, a helid, a helid, a helid, strosity before God, and is equal to any act in the category of crime.

"I would as soon trust myself in the den of a hyena as in his arms. With the courts of law and officers of law in his hands the of law and officers of law in his hands the despised negro can expect no mercy, justice or protection.

"The negro is unsafe anywhere in this country. He is the open prey at all times of barbarians who know no restraint and who will not be restrained.

"There is but one part left for the percecuted negro when charged with crime, and when innocent: Be a law unto yourself.

self. "You are taught by this last lesson of outrage to save yourself from torture at the hands of a blood-seeking public; to save your race from insult and shame; to be your own Sheriff, court and jury, and to be the Outlaw Tracy and die in your tracks, perhaps drinking the blood of your pursuers."

It was announced this evening that the negroes were to hold a meeting to discuts the matter of protecting themselves. The guard is still kept at the armory, but it is merely as a precautionary measure. There is much ammunition and a supply of rifes there and the building is in one of the negro

## INVESTIGATED THE LYNCHING The Rev. Dr. Babbitt Makes a Report on

His Return. In order to gather at first hand the ma terials for a sermon on "The Negro, the Mob and the Gospel," the Rev. Dr. Dean Richmond Babbitt, rector of the Church of the Epiphany, McDonough street and Tompkins avenue, Brooklyn, went to Wilmington last week and made a personal investigation of the burning to death of White, the negro who murdered Miss Bishop He visited the scene of the negro's crime and the spot where he was afterward burned at the stake, and he talked with the public officials of Wilmington and members of the mob. He gave out vesterday the result of what he learned in the shape of a statement and in the evening embodied he substance of this statement in a sermon. He says he has always been interested in mobs since his uncle, Dr. Gamaliel Bailey editor of the anti-slavery paper, the National Era, went through four of them for the negro in ante-bellum days.

In his statement he gives the "facts, unbiassed impressions and careful inferences" resulting from twenty-four hours of investigation. Following are portions of he statement The mob and lynching could have been easily prevented by the authorities. The very sources of the mob from Marshalton and Wilmington were known to the county and police authorities. Yet they failed to act

Helms gave a sermon on baseball, in the course of which he criticised Arlie Latham and Tom Brown, who were once famous in the National League, and who umpired the game at Olympic Park on Decoration Day.
